The Watery Place (Notes)

— Isaac Asimov.

1. How did the flying saucer land?

The flying saucer came down sweet steady and without a sound.

2. Describe the aliens.

The aliens wore dark ~~st~~ suits and black shoes. They had dark complexions, black wavy hair and brown eyes. They had very serious looks on their faces and were about five foot ten apiece. They looked very much alike.

2. Why did they choose Twin Gulch to make contact with the earth.

The aliens chose Twin Gulch for their first meeting because it was isolated and peaceful.

3. Why did the sheriff mistake Venus for Venice?

The aliens said that they came from Venus, the watery place. The phrase 'watery place' made the sheriff mistook it for Venice the watery place. Moreover the aliens had dark complexion and the sheriff thought they were Italians.
